Plustek Opticfilm 8200 Ai
Film and Negative
Scanners
TK2438

When scanning slides and negatives, the Plustek Opticfilm 8200 Ai Graphic scanner, offers a much better quality than flatbed scanners worth 3 times the price. Fast 8" preview and 36" scan (at 3600 dpi). Compared to the cheaper OpticFilm 8100, the 8200 Ai offers much better software, a colour calibration target and iSRD infra-red technology for removal of dust and scratches.

Main features: Dedicated 35mm scanner. USB2. Scan slides and negatives. 7200dpi. Incl. SilverFast Ai Studio 8 (full version). Infrared scan for removal of dust and scratches, IT8 colour calibration. For Windows & Mac, 1 year warranty RTB.
