Fujitsu

Part no. FJ3936

Price

A\$ 315 (incl. GST)

Availability: In Stock

Part no. FJ3936

Prices incl. VAT plus shipping costs

Description

The ScanSnap iX100 brings the power and intuitiveness of the ScanSnap range of models to a compact and totally wireless format. The ScanSnap iX100 can automatically detect Wi-Fi networks at home, in the office or on the go, it only needs to be set up once, after which any regularly visited network environment will be automatically detected.

Alternatively, with Direct Connect mode it is possible to scan wirelessly beyond an infrastructure network, simply download the ScanSnap Connect Application from the official application distribution services and then scan, save and distribute documents directly to an iPad, iPhone or Android device.

Weighing just 400g the ScanSnap iX100 comes with a USB rechargeable Lithium-ion battery that is capable of up to 260 A4 scans on a full charge. Combined with an ability to scan either via a wireless network to PC workstations or mobile devices.

Main features: A4, Wifi connected to PC (no need of wifi router to be connected with PC). Battery operation. 1 year warranty RTB.
