## Description

The Fujitsu ScanSnap S1100 Portable Scanner is easily one of the smallest mobile A4 scanners on the market. This scanner can scan plastic cards and has Continuous Document Feeding (CDF Function) which allows the user to insert pages one after another without any extra button pressing by detecting when a sheet enters and exits the S1100.

Scanning a two-sided document using the CDF Function is easy, insert the page face up and press the Scan button, the S1100 proceeds to scan the front side and the page exits facing front side down, simply reinsert the page without pressing the Scan button. The page is then scanned, press the Scan button to end the scanning process and create a PDF image file.

The Fujitsu ScanSnap S1100 delivers a snappy 7.5 seconds/page (approximately 8 ppm) scanning speed for colour A4 documents at resolutions up to 300 dpi. Link ScanSnap to iPad & iPhone devices too.

Main features: A4, USB2, scans to PDF file (not Twain), for Windows & Mac, 1 year warranty RTB. ScanSnap Manager v5.1, ScanSnap Organiser v4.1, CardMinder v4.1, ABBYY FineReader for ScanSnap 4.1(Mac & Win), Scan to Microsoft Sharepoint3.3, ScanSnap Manager(Mac v3.1), Cardiris 3.6 for ScanSnap(Mac)
