## Description

The AD280 is a 80 page-per-minute, duplex scanner with the ability to accommodate document width of up to 242 mm (9.5"). The extended document width from standard 216 mm (8.5") to 242 mm (9.5") makes the AD280 more competitive to fit for a wider range of documents. Combining reverse roller and advanced paper feeding reliability, the AD280 offers a duplex scanning speed of up to 160 images per minute in color, greyscale, and monochrome.

Included with the AD280 are TWAIN and ISIS drivers, and a bundled suite of powerful software applications that include Avison Button Manager, AvScan 5.0, and ScanSoft PaperPort SE 14. With Button Manager, the user can create searchable PDFs, scan and send images to e-mail, printer, or other destination with the simple press of a button.

The AVScan V5 and ScanSoft PaperPort are highly effective image processing and document management software that helps streamline tasks efficiently. Save space with the AD280's compact design and USB 3.0 connectivity.

Main features: 80ppm (160ipm), 100p ADF, A4+, True Duplex, USB3, for Windows (Mac optional), 1 year warranty RTB.
